

Details of Infrastructure for undertaking EA assignment

1. Tri-vector Power meter with 3 clamp on type CTs for measurement of unbalanced and balance load.
2. Tri-vector Power meter with 1 clamp on type CTs for measurement of balance load.
3. Tri-vector Power meter with 1 clamp on type CTs for measurement of balance load.
4. Flue Gas analyzer.
5. Vane type Anemometer
6. Vane type Anemometer
7. Hot wire type Anemometer.
8. Digital temperature indicator for liquids.
9. Digital temperature indicator for surface.
10. Infra red digital temperature indicator for surface.
11. Digital Hygrometer for temperature and humidity measurement.
12. Transit time Ultrasonic non-contact flow meter for measurement of liquid flow rate.
13. Lux Meter.
14. Ultrasonic Flowmeter
15. Harmonic Analyzer
